UX/Graphic Designer 4.18

Concept and implement the visual language. Create and advance site-wide style guides. Define interaction models, user task flows, and UI specifications. Communicate scenarios, end-to-end experiences, interaction models, and screen designs. Create and maintain design wireframes, mockups, and specifications as needed.

Produce high-quality visual designs—from concept to execution, including those for desktop, web, and mobile devices at a variety of resolutions (icons, graphics, and marketing materials). Create and iterate on assets that reflect a brand, enforce a language, and inject beauty and life into a product.
